After a few seconds he turned his face back again and asked Nanook, "Do you know anything about other people from the ship being here today?". Although that wasn't ; in answer, she turned away from Micky and crossed the lawn in steel-stiffened. "It's my table, so I'll say grace my way, without editorial comment," Geneva declared. Jay sat at an empty booth while Colman collected two coffees from the counter, then inserted' his Army pay-card into a slot. In a lot of ways lay reminded Colman of himself when he was a lot younger. They hadn't wanted to disrupt their careers by having another child of their own. Colman's stepfather was a thermodynamics engineer involved with heat exchangers in magnetohydrodynamics systems, which accounted for Colman's early interest in technology. Celia returned a thin smile but said nothing. She moved away with the others toward the far side of the compartment.
